M1D2

BY

GREAT WATER

Made in Europe

Designed and built exclusively for the UK market by one of Europe's oldest and largest manufacturers with over 75 years of history.

This product has a proven record in quality, reliability and performance.*

Your Great Choice

The M1D2 balances performance and design style with a compact package.

From the long life cabinet, with integrated handles for ease of installation, to the electronics controls, each softener is built to our high quality standards.

The M1D2 features Auto Adjusting Proportional Salting as standard and Meter Control.

This combination ensures that the water softener is regenerated in accordance with your households water use, always ensuring you have enough great quality softened water available to meet your family needs.

Peace of mind for you and your family.

We offer you a **free 7 years parts guarantee***, that is 5 years longer than the 2 year minimum required by EU regulations, alongside our 2 year labour guarantee*, such is our confidence in the proven record in quality, reliability and performance of this water softener.

*Guarantees are subject to registration and terms and conditions. Please enquire for details of other warranty packages.

And Reliability

Technical specifications.

Your M1D2 water softener is suitable for all types of plumbing systems. Simply specify the installation kit required based on your plumbing system.

15 mm Standard Kit (SK-15) – For conventional plumbing systems

15mm High Flow Kit (HFK-15) – For combination boilers and 15mm mains fed systems.

22mm Pressurised System Kit (PSK-22) – For full flow installations.

Please note it is not recommended to install the M1D2 without the use of flexible hoses.

Specifications	
Overall Height	575 mm
Inlet/outlet height	450 mm
Depth	425 mm
Depth including Standard Connections	465 mm
Depth including High flow Connections	485 mm
Width	275 mm
Overflow Height (centre)	350 mm
Media Volume	12 litre
Max feed hardness	520 mg/l
Max Ferrous Iron	1 mg/l
Minimum Ph	7
Salt Used per regeneration	1.5kg max
Capacity (max@300mg/l hardness)	1800 litres
Nominal Pressure range	1.5 - 8.3 Bar
Working Pressure	1.5 - 5 Bar
Water temp Range	2 - 48°C
Ambient temp Range	2 - 48°C
Flow Rate @ 1 Bar ΔP	2.2 m³/Hr
Peak Flow Rate	3.2 m³/Hr
In/Out Connection Size	3/4" BSP
Waste connection Size	16mm Hose
Overflow connection Size	16mm Barb
Power requirement (supplied with 24v transformer)	230v 50 Ma
Salt Type	Tablet
Salt storage capacity	17 kg
Shipping weight	20 kg

For larger systems or applications requiring more capacity please refer to the Great Water Pro Series products.
